CLIENT SOFTWARE. One or more HUMMINGBIRD software product(s) that is/are not classified as SERVER SOFTWARE.

COMPUTER. A single computer device, regardless of platform or operating environment, on which you will install and/or use the SOFTWARE.

CITRIX/TSE ENVIRONMENT. A single COMPUTER or a single cluster of COMPUTERS on which Citrix Metaframe for Windows, Citrix Presentation Server for Windows or Terminal Services from Microsoft is installed.

PART 1: LICENSING PROVISIONS:

1. GRANT OF LICENSE.

A. Standard License. Subject to the terms of this agreement, HUMMINGBIRD grants you this non-exclusive license to install and use the SOFTWARE. The SOFTWARE is licensed to a single user on a single COMPUTER. You may use the SOFTWARE on a CITRIX/TSE ENVIRONMENT provided that you have a licensed copy of SOFTWARE for each user and each COMPUTER that can access that SOFTWARE through the CITRIX/TSE ENVIRONMENT. You may use the SOFTWARE on a network provided that you have a licensed copy of SOFTWARE for each user and each COMPUTER that can access that SOFTWARE over the network. You may use the SOFTWARE and any related updates on the COMPUTER or the COMPUTER that is connected to the CITRIX/TSE ENVIRONMENT while you possess and operate the COMPUTER only. A separate license agreement and fee are required for additional COMPUTERS on which the SOFTWARE is installed, used or for additional users who can otherwise access the SOFTWARE. You may physically transfer the SOFTWARE from one COMPUTER to another provided that you remove any copy(ies) of the SOFTWARE from the COMPUTER from which the SOFTWARE is being transferred. If the enclosed SOFTWARE is permanently installed on a single COMPUTER and one person uses that COMPUTER more than 80% of the time it is in use, then that person may also install the SOFTWARE on a portable or home COMPUTER.

If this SOFTWARE is HUMMINGBIRD evaluation SOFTWARE, then you are limited by the terms of this license and the expiration date of the SOFTWARE.

B. Exceed onDemand Named License. Subject to the terms of this agreement, HUMMINGBIRD grants you this non-exclusive license to install and use the SOFTWARE. Except as otherwise provided herein, the server component of the SOFTWARE with Connectivity Secure Shell (“ECS”), is licensed to a single COMPUTER (“Server”) or a single Exceed Connection Server Cluster (“Cluster”). You may use the ECS and any related updates on the Server or Cluster while you possess and operate the Server or Cluster only. You may physically transfer the ECS from one Server or Cluster to another provided that you remove any copy(ies) of the ECS from the Server or Cluster from which the ECS is being transferred. Upon purchase of the SOFTWARE, HUMMINGBIRD shall issue a sequence of alphanumeric characters which represents the number of Exceed onDemand named licenses that you have purchased (“Activation Key”). Each Activation Key may only be installed on one Server or Cluster. Except as otherwise provided herein the client component of the SOFTWARE (“Exceed onDemand Client”) is licensed to a single named user. The access from the Exceed onDemand Client to the ECS is enforced through a list of named user identities maintained on the ECS. When a user establishes a first connection from the Exceed onDemand Client to the ECS, the ECS will permanently grant an Exceed onDemand Named License to this user. The ECS will stop granting Exceed onDemand Named Licenses to additional users when the number of Exceed onDemand Named Licenses that have already been granted reaches the maximum number of Exceed onDemand Named Licenses based on your initial license purchase of the SOFTWARE and any additional license purchase of the SOFTWARE. Subsequent connections from the Exceed onDemand Client to the ECS by the same named user and initiated from the same COMPUTER will not require an additional Exceed onDemand Named License provided that the identity of this named

user remains the same between the first connection and the subsequent connections. You may use the Exceed onDemand Client and any related updates on the COMPUTER while you possess and operate the COMPUTER only. A separate license agreement and fee are required for additional named users who wish to access the Server or Cluster.

If this SOFTWARE is HUMMINGBIRD evaluation SOFTWARE, then you are limited by the terms of this license and the expiration date of the SOFTWARE.

C. Exceed onDemand Server-Based License. Subject to the terms of this agreement, HUMMINGBIRD grants you this non-exclusive license to install and use the SOFTWARE. You may use the ECS and any related updates on the Server or Cluster while you possess and operate the Server or Cluster only. You may physically transfer the ECS from one Server or Cluster to another provided that you remove any copy(ies) of the ECS from the Server or Cluster from which the ECS is being transferred. Upon purchase of the SOFTWARE, HUMMINGBIRD shall issue a sequence of alphanumeric characters which represents the number of Exceed onDemand Server-Based licenses that you have purchased (“Activation Key”). Each Activation Key may only be installed on one Server, Cluster or Exceed License Server. Except as otherwise provided herein the client component of the SOFTWARE (“Exceed onDemand Client”) is licensed to be installed on as many COMPUTER as needed and to be used by as many users as needed. All connections from the Exceed onDemand Client to the ECS initiated by the same user from the same COMPUTER will constitute one Exceed onDemand Server-Based License. The number of Exceed onDemand Server-Based Licenses used at any given time cannot exceed the maximum number of Exceed onDemand Server-Based Licenses based on your initial license purchase of the SOFTWARE. A separate license agreement and fee are required for additional Exceed onDemand Server-Based Licenses.

If this SOFTWARE is HUMMINGBIRD evaluation SOFTWARE, then you are limited by the terms of this license and the expiration date of the SOFTWARE.

D. NFS Maestro Gateway License. Subject to the terms of this agreement, HUMMINGBIRD grants you this non-exclusive license to install and use the SOFTWARE. Except as otherwise provided herein, the SOFTWARE is licensed to a single COMPUTER (“Server”). You may use the SOFTWARE and any related updates on the Server. In the event that multiple servers are used for load balancing, performance improvement or other operational performance improvements (each additional server other than the Server being referred to as a “Node”), and connections may be made to a Node at the same time as the Server is functional, then additional licenses of the SOFTWARE are required for each Node in addition to the Server. When you license the SOFTWARE, HUMMINGBIRD shall issue a sequence of alphanumeric characters (“Activation Key”) which represents the maximum number of computer connections (“Client Connections”) that are permitted to simultaneously access each resource on the Network File System network shared by the SOFTWARE. Each Activation Key may only be installed on one Server or Node. The number of Client Connections you are entitled to within each Server or Node is based on your initial license purchase of the SOFTWARE and any additional license purchases of the SOFTWARE. A separate license agreement and fee are required for additional Client Connections, or additional COMPUTERS on which the SOFTWARE is installed and/or used. You may physically transfer the SOFTWARE from one COMPUTER to another provided that you remove any copy(ies) of the SOFTWARE from the COMPUTER from which the SOFTWARE is being transferred.

If this SOFTWARE is HUMMINGBIRD evaluation SOFTWARE, then you are limited by the terms of this license and the expiration date of the SOFTWARE.

E. NFS Maestro Server Enterprise Edition License. Subject to the terms of this agreement, HUMMINGBIRD grants you this non-exclusive license to install and use the SOFTWARE. Except as otherwise provided herein, the SOFTWARE is licensed to a single COMPUTER (“Server”). You may use the SOFTWARE and any related updates on the Server. In the event that multiple servers are used for load balancing, performance improvement or other operational performance improvements (each additional server other than the Server being referred to as a “Node”), and connections may be made to a Node at the same time as the Server is functional, then additional licenses of the SOFTWARE are required for each Node, as well as for the Server. The SOFTWARE allows an unlimited number of concurrent NFS clients operating on one or more networks to access an unlimited number of the following Windows resources shared on the Server or Node: local drives, local directories, directories on the registered external disks, CD-ROMs, locally attached printers and network printer resources with a local print queue. A separate license agreement and fee are required for additional COMPUTERS on which the SOFTWARE is used. You may physically transfer the SOFTWARE from one COMPUTER to another provided that you remove any copy(ies) of the SOFTWARE from the COMPUTER from which the SOFTWARE is being transferred.

Except as otherwise provided herein, the SOFTWARE is licensed to a single COMPUTER (“Server”). You may use the SOFTWARE and any related updates on the Server. All connections to the

SOFTWARE on the Server initiated from the same COMPUTER using the same logon credentials shall constitute one client connection ("Client Connection"). Upon purchase of the SOFTWARE, HUMMINGBIRD shall issue a sequence of alphanumeric characters which represents the maximum number of Client Connections that can be used simultaneously on a Server at any given time. ("Activation Key"). Each Activation Key may only be installed on one Server. The number of Client Connections used at any given time cannot exceed the maximum number of Client Connections based on your initial license purchase of the SOFTWARE and any additional license purchases of the SOFTWARE. A separate license agreement and fee are required for A separate license agreement and fee are required for additional Client Connections or additional COMPUTERS on which the SOFTWARE is installed and/or used. You may physically transfer the SOFTWARE from one COMPUTER to another provided that you remove any copy(ies) of the SOFTWARE from the COMPUTER from which the SOFTWARE is being transferred.

If this SOFTWARE is HUMMINGBIRD evaluation SOFTWARE, then you are limited by the terms of this license and the expiration date of the SOFTWARE.

F. If you are licensing Exceed Freedom the following supplemental licensing conditions apply:

OpenSSH license

This file is part of the OpenSSH software.

The licences which components of this software fall under are as follows. First, we will summarize and say that all components are under a BSD licence, or a licence more free than that.

OpenSSH contains no GPL code.

1) Copyright (c) 1995 Tatu Ylonen <ylo@cs.hut.fi>, Espoo, Finland. All rights reserved

As far as I am concerned, the code I have written for this software can be used freely for any purpose. Any derived versions of this software must be clearly marked as such, and if the derived work is incompatible with the protocol description in the RFC file, it must be called by a name other than "ssh" or "Secure Shell".

[Tatu continues]

However, I am not implying to give any licenses to any patents or copyrights held by third parties, and the software includes parts that are not under my direct control. As far as I know, all included source code is used in accordance with the relevant license agreements and can be used freely for any purpose (the GNU license being the most restrictive); see below for details.

[However, none of that term is relevant at this point in time. All of these restrictively licenced software components which he talks about have been removed from OpenSSH, i.e.,

- RSA is no longer included, found in the OpenSSL library
- IDEA is no longer included, its use is deprecated
- DES is now external, in the OpenSSL library
- GMP is no longer used, and instead we call BN code from OpenSSL
- Zlib is now external, in a library
- The make-ssh-known-hosts script is no longer included
- TSS has been removed
- MD5 is now external, in the OpenSSL library
- RC4 support has been replaced with ARC4 support from OpenSSL
- Blowfish is now external, in the OpenSSL library

[The licence continues]
